Sustainability at a Glance

Sustainable Development Goals as a target system

Company

Sustainable business

- Develop and offer sustainable innovations and services
- Establish a resilient reporting structure for non-financial reporting
- Continue to ensure trustworthiness & role model function
- Strengthen the Integrated Management System
- Expand cooperation & engagement

People

Be an attractive and responsible employer

- Promote the health & safety of employees
- Enable professional training & development
- Further develop corporate culture
- Ensure diversity & equal opportunities for all
- Continue to enable work-life balance

Environment

Achieve climate neutrality

- Implementation of measures to reduce CO_2 (e.g. for business trips and real estate)
- Increase energy efficiency of buildings
- Ensure resource conservation and efficiency
- Increase the implementation rate of the Group Regulation 500 "Corporate Environmental Management"
